Elías Currihuil

Los Arenales 612
Temuco, Chile.
+569 49774929
currihuile@gmail.com

Mobile and Web Developer. Currently, a Computer Engineering student at the University of La Frontera. Extensive knowledge in mobile development with Flutter and Jetpack Compose. Fullstack Developer with projects based on the integration of React and Spring Boot.

EXPERIENCE - PERSONAL PROJECTS

LeafWaves

Flutter, Dart, Firebase

A mobile app for note-taking, with various options for customization and organization. It is available for download on the Play Store.

MediOrganizer

Kotlin, Jetpack Compose

A desktop application that serves as a medical organizer, allowing the registration of patients, consultation times, among others. It is available on GitHub: https://github.com/CQuarkH/MediOrganizer

Praise The Sale

React, Firebase, SpringBoot, MySQL

A free market E-Commerce where products can be freely posted, as well as purchased. It is quite similar to what Facebook Marketplace is currently. The project is available on GitHub: https://github.com/CQuarkH/PraiseTheSale
